Care

NDIS

Continence Care funding support

The NDIS has opened up a new opportunity for people with a disability to access life changing solutions to manage their continence issues.

Did you know?

Coloplast has helped nearly **1,400 people** receive NDIS funding.¹

How?

We are in dialogue with more than **1,680 participants**²

We have provided over **300 justification letters** outlining the importance of high-value continence products²

80% of participants we support have been approved with the continence aids requested²

We can provide **documents for review plans supporting use and funding** for continence products

With the NDIS fully rolled out across Australia, continuing a dialogue about good quality continence products is important for those who need them. Coloplast can help your patients start their NDIS journey with the best continence products for them.

SpeediCath® Flex

SpeediCath Flex is a pre-lubricated, hydrophilic-coated catheter with a dry touch sleeve to allow for easy catheterisation and hygienic handling. The rounded, flexible tip finds the centre of the urethra every time, allowing the catheter to pass through difficult passages with ease.

The packaging is discreet and easy to open, even with poor hand dexterity. Once used, the catheter can be placed into the re-sealable packaging for discreet disposal. SpeediCath Flex is available in single and pocket size double-loop variants.

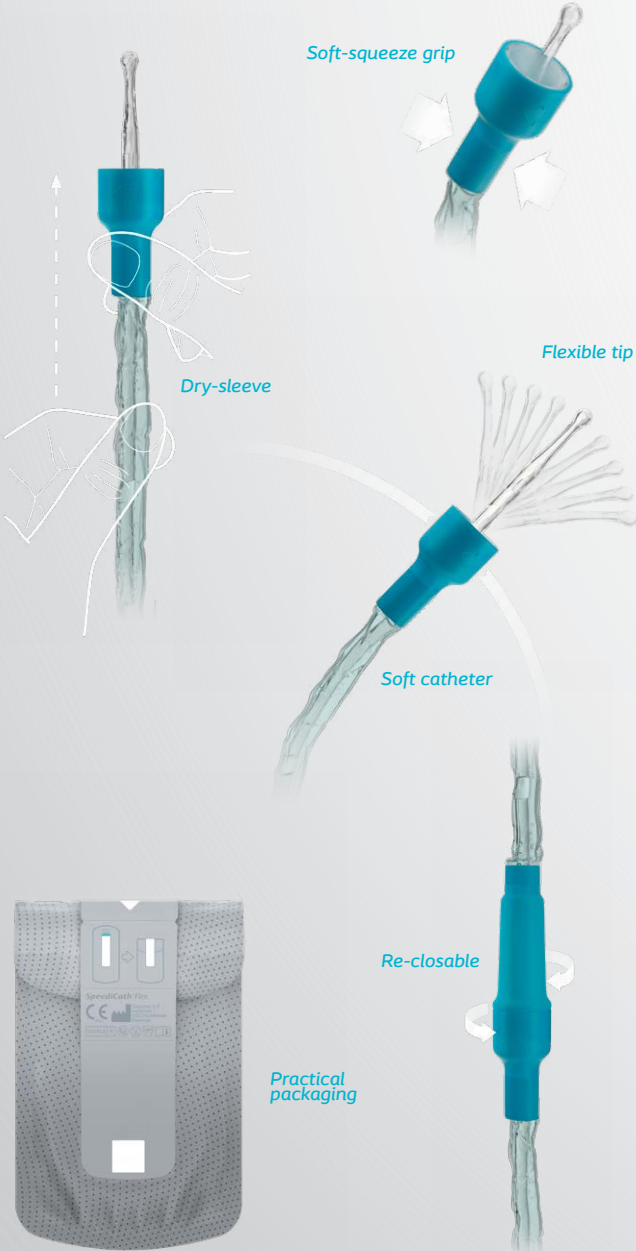

Code	Order Code	Size Fr	Units Per Box	Units Per Carton
SpeediCath Flex Male Single loop - 33cm				
28920	2310363	10 ●	30	90
28922	2310370	12 ○	30	90
28924	2310387	14 ●	30	90
28916	2310356	16 ●	30	90
SpeediCath Flex Male Double loop (pocket-size) - 33cm				
28910	2310325	10 ●	30	120
28912	2310332	12 ○	30	120
28914	2310349	14 ●	30	120

Did you know?

The SpeediCath Flex packaging is aluminium-free, reducing its CO₂ footprint. Removing the aluminium has saved the equivalent of **170 soft drink cans per user per year**.

Every detail makes it *easy*

SpeediCath® Compact

The SpeediCath Compact catheters are a pre-lubricated, hydrophilic-coated catheter, designed to be compact and discreet. They are equipped with a no-touch grip for ease of handling, reducing the risk of infection.

The SpeediCath Compact catheters are re-sealable, meaning they can be stored, carried, used and disposed of discreetly, allowing you to catheterise without worry.

SpeediCath Compact Female

The SpeediCath Compact Female catheter is the size of a lipstick, so it can fit easily into any bag. SpeediCath Compact Female catheters come in 7cm and 9cm lengths – providing a solution for everyone.

Code	Order Code	Size Fr	Units Per Box	Units Per Carton

SpeediCath Compact Male

The SpeediCath Compact Male catheter extends from size 12Fr to 18Fr, designed to be used by all requiring a catheter within these sizes.

Code	Order Code	Size Fr	Units Per Box	Units Per Carton
SpeediCath Compact Male - 30cm				
28692	2137263	12/18	30	300

SpeediCath® Compact Set

The SpeediCath Compact Set is a pre-lubricated, hydrophilic-coated catheter that is ready to use anywhere. The catheter comes with a 750ml integrated urine bag, allowing you to catheterise hygienically wherever you are, even if you can't transfer to a toilet. Compact and discreet, this intuitive set is ready for everyday use in and out of the home.

The SpeediCath Compact Set comes in both male and female variants. The SpeediCath Compact Female is available in a size 12Fr.

The SpeediCath Compact Set Male catheter extends from size 12Fr to 18Fr, designed to be used by all requiring a catheter within these sizes.

Did you know?

The SpeediCath Compact Set won a reddot design award in 2013 for its simple, innovative design.

SpeediCath® Standard

The SpeediCath Standard catheter is a pre-lubricated, hydrophilic coated catheter making it instantly ready to use. Designed with a pull ring opening, it's easy to use even for those with poor hand dexterity.

The SpeediCath Standard catheter is the catheter for those who are looking for flexibility in their choice of catheter size.

28496	2278014	16 ●	30	300

Did you know?

SpeediCath was developed in 2000, changing the way people catheterise by introducing the first instantly ready to use catheter.

EasiCath®

EasiCath is a hydrophilic coated intermittent catheter that is ready to use in 30 seconds. The hydrophilic coating ensures comfort with every use.

The hydrophilic coating simply requires water to activate, making EasiCath a safe and easy solution. Simply fill the package with water, wait 30 seconds to activate the lubricant and EasiCath is ready to use.

Code	Order Code	Size Fr	Units Per Box	Units Per Carton

5356	1737590	16 ●	25	300
5358	1696502	18 ●	25	300

Did you know?

You can make EasiCath firmer by activating it with cooler water, and softer with warm water.

Self-Cath®

Self-Cath intermittent catheters provides a full range of solutions. The straight-tip nelaton catheter is designed with features that bring you greater comfort. The siliconised surface gives a smoother insertion, while a bullet-shaped tip makes insertion easy.

(SAS #: Paediatric 9869K, Female 9870L, Male 9867H)

Did you know?

Self-Cath catheters are designed with a small distance between tip and eyelets to allow for better drainage. The eyelets are fire polished to make catheterisation comfortable.

Self-Cath® Specialised Catheters

Self-Cath Specialised catheters provide a full range of solutions for those with complex anatomies. Offered in olive and tapered coude tips, they provide a catheter solution that can help navigate through strictures, enlarged prostates and false passages. The soft Self-Cath catheter allows gentle catheterisation.

50468	1951588	14 ●	30	360

Did you know?

The Olive and Tapered tip Coudé come with a guide strip to ensure direction of the tip position can be identified at all times.

SpeediGrip®

A convenient plastic device to allow people with limited dexterity to perform intermittent self catheterisation with minimum hassle.

Code	Order Code	Item	Units Per Box	Units Per Carton
28996	1918415	SpeediGrip	1	100

Simpla® Catheter Straps

Designed to reduce the risk of unplanned catheter removal or trauma to the bladder the Simpla Catheter Strap is an easy to use long-term catheter securement. With silicone beading on the back to minimise slip and white colouring to minimise visibility underneath clothing, the Simpla catheter straps are a great solution for long-term catheter wearers. Available in a 50cm and 60cm length, the Simpla catheter strap can be secured to the leg or abdomen for ease of use.

Code	Order Code	Item	Size cm	Units Per Box	Units Per Carton
380840	1728303	Simpla Cathstrap	50	5	100
380841	1464942	Simpla Cathstrap	60	5	100

(SAS#: 38040/3670E)

Please note that our **Catheter Valve** and **Releen In-Line Foley Catheters** have moved to the **Interventional Urology** business area at Coloplast.

While Coloplast still offer these solutions, they no longer fall under the Continence department, and will need to be sampled via your Urology representative.

For any questions please contact Urology at auurology@coloplast.com

Conveen® Urisheaths

Conveen Optima Urisheath

1-piece silicone

Coloplast's award winning sheath for men with urinary incontinence. Conveen Optima features easy to open, discreet packaging with double grip strip for easy application. Other features include anti-kink bellow, ridged funnel, skin friendly adhesive and a push ring for easy connection to a urine bag. Conveen Optima is a reliable 1-piece breathable silicone solution.

Conveen® Security+

Designed with extra security in mind, the Conveen Security+ urine bags are equipped with features to offer maximum protection and security to the wearer. The Conveen Security+ leg bags come with an adjustable, anti-kink tubing to reduce the risk of backflow, and offer a customised fit. They are equipped with a soft backing to provide a comfortable wear, as well as a discreet design and colour to reduce visibility underneath clothing. The customised clamp outlet is easy to operate, and easy to verify it's closed.

The overnight bag comes in a larger capacity, allowing you to sleep without worry. The 2-Step tap offers secure control over urine flow.

Conveen® Active

Conveen Active leg bag

Conveen Active is designed for those with an active lifestyle in mind. The Conveen Active bag is integrated into a comfortable elastic band that wraps around the thigh for ease of use, mobility and discretion. The soft plug outlet tap allows normal emptying of a full bladder and hides away into the elastic band when not in use.

Simpla® Plus Syphon Bag

The Simpla Plus Syphon bag is designed to offer greater independence to those who struggle to empty traditional leg bags. The long outlet tube and T-tap make the Simpla Plus Syphon bag ideal for those with poor dexterity, balance or mobility as the wearer can easily and conveniently empty their own bag. The Simpla Plus Syphon bag is designed with an anti-kink tubing to reduce risk of backflow, and a soft backing to ensure a comfortable wear.

Simpla® Overnight Bags

The Simpla overnight bags come in a range of options for your overnight needs. Available in both a sterile and non-sterile version, the Simpla overnight bags are also offered with a t-tap for easy drainage, or no tap for one-off use. The universal connector allows for easy connection and disconnection to leg bags, and the non-return valve prevents backflow.

Peristeen® Transanal Irrigation

Peristeen Transanal Irrigation is for patients who suffer from faecal incontinence, chronic constipation and for those who spend a long time on bowel management due to neurogenic bowel dysfunction. The system requires medical assessment, approval and instruction prior to use. The first irrigation must also be supervised by a trained health care professional. ***New Peristeen users can be supported for the first 12 weeks of using the system through out Peristeen Support Program.***

Did you know?

Peristeen Anal Plugs come enclosed in a water-soluble film, to allow for easy insertion and a secure fit.

Conveen® Skin Care

Conveen EasiCleanse - to cleanse

EasiCleanse is a glycerine and critic alternative to soap and water. It can be used to gently remove sweat, urine, faeces and creams without irritation, stinging or the need for further rinsing. The versatile nozzle can be altered for a spray or foam application.

Code	Order Code	Size	Units Per Box	Units Per Carton
66001	1568847	250ml Spray	1	12

Conveen Protact - to protect

Protact contains 12% zinc oxide to provide a gentle barrier to dry skin. Dimethicon repels fluid, while lanolin oil, vitamin E and propylene glycol protects the skin from drying out, maintaining suppleness.

Code	Order Code	Size	Units Per Box	Units Per Carton
65050	1564152	50 gm Tube	1	12
65100	1602863	100 gm Tube	1	12

Conveen Critic Barrier - for critically damaged skin

Critic barrier cream contain 20% zinc oxide to keep damaging secretions away from the skin. CMC Cellulose gum absorbs moisture to aid in healing broken skin, and provides thickness to the cream, ideal for broken or wet skin. Critic barrier cream also provides relief to irritated and sensitive skin.
