POWER DRY

iD CLASSIC PANTS COMPLETE SKIN PROTECTION

iD Classic Pants are a range of unisex pull-up pants which offer complete skin protection. The Classic range of iD pants have fast absorption and instant dryness, are 100% breathable and contain natural ingredients that protects the integrity of the skin.

Fast absorption / instant dryness

The core pad with natural cellulose fibers and superabsorbent particles locks liquid, and the acquisition layer on top creates an extra barrier to keep the skin dry.

Your benefit: During a full time use, the skin is left instantly dry.

100% breathable

The full product is made with breathable raw materials totally waterproof but which keep a fresh flow of air.

Your benefit: It is soft, comfortable and safe for a sensitive zone.

Improved top sheet

The improved top sheet of the iD Pants protects and preserves the sensitive intimate skin through a new recipe with **natural ingredients**:

Camomille has a soothing and calming effect.

Vitamin E is known for its antioxidant properties.

Your benefit: The top sheet is skin friendly for a sensitive zone. It reduces the risk of skin irritations.

Approved by dermatologists

Feel safe at night

The MAXI level of absorption, guarantees an overnight protection (up to 10 hours!) without any leakages or feeling of wetness. The ideal solution for a comfortable night sleep.

Result? 98% of the participants confirm skin integrity after wearing the product overnight.*

* Source: Consumer tests overnight on 100 people, in Portugal by "Sense Test" 09/2020

TIPS

If you use iD Light pads during the day, iD pants may be ideal for night use.

SHAPE

Mesh Net Pants

Ideal when you want extra security and greater freedom of movement.

The iD range of figure hugging pants can be used to hold incontinence iD Form shaped pads securely in place. Both ranges of pants aid the risks of leakage whilst maximising comfort and security. Double elastics with tight seams and soft fibres allows more freedom of movement whilst also minimising the risk of skin irritation.

Ordering

Ontex partners with both national and local distributors who can delivery directly to your home. You can also order samples online at the iD website.

Sustainability

Ontex is committed to sustainability and continues to take actions to reduce emissions, waste and source ethically sustainable raw materials. In Europe our manufacturing plants use 100% green electricity and 86% of our production waste is recycled or incinerated with energy recuperation. The core of the iD pads are made with PEFC sustainable pulp (100% natural cellulosic fibers).

HOME CARE PROFESSIONAL SUPPORT

Training

Ontex provides training modules on incontinence through The Continence Institute (TCI) for health care professionals. The education packages are endorsed by the Australian College of Nursing (ACN) and attracts CPD points.

TCI courses use evidence based research and global best practices. The content is regularly updated by a team of qualified Continence Nurse Advisors and is delivered face to face.

Samples

iD samples can be ordered for clients online at <http://www.ontexhealthcare.com.au/>. Samples can be sent directly to you or your client and will be delivered in discreet packaging. You can also track the delivery of samples and save your favourite products for future orders.

Prescribing

To ensure the client orders the correct product use our Ontex tear off prescription pad.

Resources

Online resources to support you and your clients are available in a printable format.
