

NDIS Continenence Assessments

Get the right advice, find the right products and gather the right evidence for NDIS Plans

Surgical House is working with **Kavita Shiyani** to offer a reliable solution for Continenence Assessments, product selection and detailed quotes for NDIS participants.

Kavita is a Registered Nurse & qualified Continenence Nurse Advisor. She is available to provide assessments face-to-face and online.

A meeting with Kavita will include assessing the Participant's continenence needs, creating a care plan and selecting products. Kavita will cover all aspects of continenence care from pads, catheters, cleansing and protecting the skin and produce a written evidence report. This may take from 3-6 hours (depending on complexity).

Assessments are paid for through the Participant's Plan* directly to Kavita. Surgical House will provide a free, no-obligation quote based on all consumables recommended through the assessment giving you a comprehensive record of evidence for NDIS budgets.

Kavita supports all people of all ages - children, teens and adults. She is an experienced Clinical Nurse Manager, AHPRA Registered and fluent in English, Hindi, Gujarati and Punjabi.

Surgical House is a WA family-owned business that has been supplying healthcare products and equipment since 1980. We stock an extensive range of continenence products. Our friendly, knowledgeable team can support you in our Osborne Park showroom or by phone.

*NDIS Self & Plan Managed Participants only.
