The Aspire Shell Chair is a comfortable mobile seating solution designed to maximise user access and social interaction within an Aged Care Facility or Healthcare environment.

The compact design allows access under tables for sharing meals, games and other activities. The lightweight frame with anterior tilt function for sit to stand transfers reduces the manual handling burden for caregivers.

Forward tilt functionality assists with chair egress and standing transfers. Backwards tilt functionality assists in pressure redistribution and patient stability during transfers.

Forward Tilt (-3°)

Backward Tilt (27°)

✓ DVA Contracted

✓ Tested and Compliant with Relevant AS/NZS/ISO Standards

✓ Shell Chair is registered in the ARTG, AUST R ARTG 277232

COMFORT & SUPPORT

Ergonomic wing headrest and lumbar cushioning for improved seating posture

SAFETY LAP BELT

Supportive lap belt designed with a single pull strap for convenient adjustment. Can also be tucked out of the way when not in use

REMOVABLE SEAT CUSHION

Facilitates acute pressure care options such as utilising a ROHO cushions

ERGONOMIC LEG REST

The supportive leg rest automatically raises or lowers as the chair is tilted (pictured with optional footplate - CHP198925)

ATTENDANT CARER PUSH HANDLE

Ergonomically designed, tilt trigger lever makes postural adjustment a simple task

STORAGE POCKET

Conveniently carries everyday items such as clip boards, magazines or diaries

ADJUSTABLE SEAT HEIGHT

Seat height can be adjusted by up to 80mm allowing the chair to be used at a desk or dining table

LIGHTWEIGHT AND MANOEUVRABLE

12.5" rear wheels with attendant foot brake, 5" front swivel castors together with a lightweight design, makes for easy and safe handling for caregivers and a smooth and comfortable ride for users

CLINICAL CONSIDERATIONS

OPTIMISES USER INDEPENDENCE

- Anterior tilt functionality assists with chair egress and standing transfers, maximises a user's independence in a safe manner

ANTHROPOMETRIC CONSIDERATIONS

- Two sizes available, with height adjustment, to ensure correct fit and postural support

FATIGUE MANAGEMENT

- The 27° tilt allows users to relax whilst sitting unassisted

PRESSURE INJURY MANAGEMENT

- Dartex fabric is high stretch reducing the risk of shear and friction
- The tilting feature allows pressure redistribution

OEDEMA MANAGEMENT

- Raised leg positioning to assist with lower limb oedema

- Compatible with other, pressure relieving cushions

IMPROVES SOCIALISATION

- Lightweight and compact design improves access to social activities such as group dining

REDUCED MANUAL HANDLING BURDEN

- A lightweight design and small footprint to make manoeuvring the chair easier for caregivers
- The anterior tilt function means that a user can be more independent in sit-to-stand transfers, reducing the need for more than one carer to assist
- As a result, the need for manual handling equipment is reduced

TECHNICAL SPECIFICATIONS

	Seat Width	Overall Width	Seat Depth	Armrest Height	Seat Height (with 7cm cushion)	Tilt Angle	Overall Length	Overall Weight	Max User Weight
Medium CHP198910	450mm	700mm	440mm	230mm	450 - 530mm	-3° Forward Tilt +27° Backward Tilt	890mm	30kg	135kg
Large CHP198915	510mm	720mm	470mm	230mm	450 - 530mm	-3° Forward Tilt +27° Backward Tilt	890mm	30kg	135kg

* Chair measurements may vary +/- 10mm due to upholstery tolerances

* Seat width is taken between the thickest sections of armrest padding
