

DUOCAL

DESCRIPTION

A powdered blend of fat and carbohydrate.

INDICATIONS

For use as a food fortifier to enhance energy intake in a wide range of conditions requiring a high energy, low fluid diet, such as renal disease, liver disease and catabolic stress. Suitable for infants, children and adults.

PREPARATION AND ADMINISTRATION

Can be used to fortify a wide variety of drinks and foods. When adding to moist foods, sprinkle on the required amount and stir thoroughly. Alternatively make into a paste by gradually adding a small amount of water and mix paste into the food. For drinks and infant formula, mix required amount of Duocal with the dry formula and make as per instructions.

ADMINISTRATION GUIDELINES

The dosage should be determined by a clinician or dietitian only and is dependent on the age, body weight and medical condition of the patient.

GENERAL PRECAUTIONS

Use under medical supervision. Not for parenteral use. Not suitable for use as a sole source of nutrition.

STORAGE

Store in a cool, dry place. Always replace the container lid after use. Once opened, use within one month. Once reconstituted, store in a refrigerator and consume within 24 hours. Stir or shake immediately before serving.

PACK SIZE

400g tin.

INGREDIENTS

Dried Glucose Syrup, Fractionated Coconut Oil, Hybrid Safflower Oil, Canola Oil, Emulsifier (E472(c)).

AVERAGE CONTENTS	UNIT	PER 100G
