7 Low Profile - Alternating Mattress Replacement

The Carilex Mattress Replacements are designed to facilitate blood circulation and provide maximum tissue pressure redistribution and relief for treating and preventing pressure injuries.

They form the ideal therapy system when used with a compatible pump providing low noise levels and the comfortable modular cell design for superior sleeping quality.

GENERAL FEATURES

Patient Envelopment	Low profile, alternating air mattress replacement - envelops and off loads patient body mass by expanding the therapy contact area and depth
Quick Connect Coupling	Easy connection between power unit and mattress
Cable Management	Positioned on one side for no fuss cable and cord management
CPR	Pull Tab deflates the entire mattress within seconds
Washable Cover	2 way stretch
Zip on Foam Base	Extra 2" foam protection for patient support

OPTIONAL EXTRA

Four Direction Stretch Coverlet	High quality DARTEX washable four-way stretch, shear force reduction, excellent moisture permeability
