### TURNING & POSITIONING SYSTEMS

#### Mölnlycke® Z-Flex® Heel Boot

To maintain offloading of heels overtime. The combination of positive air displacement and fluidised positioning helps offload the heel and spread the pressure evenly over the Achilles tendon

- Fully offloads the heel
- Positions feet in the neutral alignment
- Accommodates compression devices
- Quick access for heel inspection
- Thermal regulating material
- One size fits most

**One size fits most**  
2 boots per box  
8 boots per box

#### Mölnlycke® Z-Flo® Fluidized Positioner

To assist with patient positioning and offloading of at risk anatomical sites

- Redistributes pressure or offloads
- Keeps patients in position
- Mouldable to protect vulnerable areas
- \* More sizes available for Paediatric and Neonatal

**With Tab**  
41cm x 76cm  
**Without Tab**  
64cm x 91cm  
30cm x 51cm

#### Mölnlycke® Tortoise® Turning & Positioning System

To assist with turning and repositioning of patients

- Provides continuous pressure redistribution
- Supports a wide degree of turns to increase efficiency
- Can be used to create any degree of turn required by the patient's condition
- Reduces the risk of caregiver injury
- Reduces the risk of the patient falling or sliding down the bed
- Approved for lateral transfer and MRI to minimise lifting
