

Nepro® is a 2.0kcal/mL nutritionally complete sip and tube feed with modified levels of nutrients specifically designed for patients with renal disorders and requiring dialysis.

INDICATIONS

- Dialysis patients with chronic or acute renal failure, with electrolyte and fluid restrictions
- Selected patients with chronic renal failure who are not yet receiving dialysis and need a moderate-protein, high-calorie supplement or tube feeding
- Transplant patients

FEATURES

- Complete balanced nutrition for dialysis patients
- Concentrated nutrition for patients requiring fluid restriction
- Moderate protein level 70g/L
- Modified electrolyte levels to minimise the risk of electrolyte imbalances in people with renal impairment
- Tailored vitamin and mineral profile to support the unique needs of people with renal insufficiency
- Contains Fructo-oligosaccharides (FOS) 15.6g/L to assist bowel health and colonisation of "gut friendly" bifido bacteria
