PIXEL

INDOOR ROLLATOR

Pixel is a multifunctional and very practical ultra-lightweight rollator for indoor use. It is for persons who want to maintain an independent lifestyle, but need a little help, support and safety to get around in the house. Besides stylish, unique and modern design, **Pixel** has a very low weight of only 5.2 kg.

more than mobility

PIXEL

INDOOR ROLLATOR

EASY TO MANEUVER

Integrated rear wheels prevent the rollator gets stuck when passing through doorways, past furniture etc. and this prevents the interior from being scratched. With its 54 cm width and swivelling front wheels, it can easily turn and pass very narrow doors, for example kitchen or toilet doors in old apartments.

FOLDABLE

Convenient, space saving storage - **Pixel** is very easy to fold, unfold and store. It stands on its wheels when folded. Remains locked in folded position.

DINING TABLE & SIDE TABLE

Pixel and its tray can be used as a serving trolley or as a table to eat from. The frame design allows **Pixel** to move closer to your chair, couch or bed, being used as side table.

REHASENSE

Equipped with a unique locking system that makes it easy to lock or unlock the rollator when you want to fold or unfold it.

Wheels are equipped with soft, black PU tyres which provides excellent comfort and optimal grip on smooth surfaces/floors.

Design combined with very low weight and super soft wheels provides extremely good performance when climbing door steps etc.
