# Importance of healthy skin

The skin is the largest organ in the human body and plays a vital role in protecting it from external factors. The skin's surface is covered by a delicate acidic film known as the acid protection mantle, that shields against harmful environmental factors and bacteria. Maintaining a slightly acidic pH of 4.5 to 5.5 is essential for skin integrity.

Multiple risk factors, can weaken the skin and make it more susceptible to damage. This can lead to a range of skin conditions, including skin tears, Incontinence Associated Dermatitis (IAD), and pressure injuries (PI). It is essential to maintain skin integrity to prevent these conditions.

## Common risk factors for skin injury

Graph 1: Skin Injury Prevalence

**!** People with IAD have a 37.5% greater risk of developing a pressure injury.<sup>9</sup>

### Prevention: What the experts recommend

Skin Tears	IAD	Pressure Injury	Intertriginous Dermatitis (Intertrigo)
<ul style="list-style-type: none"> <li>Use soapless, no-rinse and/or pH-neutral skin cleansers.<sup>14</sup></li> <li>Moisturise the skin twice daily to reduce incidence up to 50%.<sup>15</sup></li> </ul>	<ul style="list-style-type: none"> <li>Use a cleanser with a low surfactant.<sup>10</sup></li> <li>Soap and water should be avoided to maintain the skin's normal pH.<sup>11</sup></li> <li>Use cleansers, wipes or emollients that will cleanse and moisturise at the same time, reducing skin irritation and dehydration.<sup>11</sup></li> <li>Minimise tissue breakdown from external factors with skin barrier products.<sup>11</sup></li> </ul>	<ul style="list-style-type: none"> <li>Use a pH balanced cleanser to promote healthy skin.<sup>16</sup></li> <li>Use a moisturiser to maintain moisture balance and reduce the risk of skin damage.<sup>16</sup></li> <li>Protect the skin from moisture sources (e.g. incontinence) to reduce the risk of skin damage.<sup>16</sup></li> </ul>	<ul style="list-style-type: none"> <li>Cleanse with a no-rinse, pH-balanced cleanser and avoid the use of alkaline soaps.<sup>12</sup></li> <li>Keep the skin clean and dry and inspect regularly.<sup>13</sup></li> <li>Before applying skin care, rule out infection. Skin care may include skin barriers to protect the skin from moisture and irritation.<sup>13</sup></li> </ul>

# Prevention is key with MoliCare®

Skin tears, IAD and pressure injuries present significant challenges for people, including causing pain, discomfort, and reduced mobility. Prevention and management strategies are crucial for improving patient outcomes and reducing healthcare costs.

Clinical evidence suggests a structured skin care regimen with products to cleanse, protect and care for skin, can significantly decrease the incidence of skin tears<sup>7</sup> and prevent the onset of IAD and PIs.<sup>8</sup>

A preventative skin care strategy includes selecting the right cleanse, protect and care products to suit the assessed needs of the skin. Skin at lower risk of irritation requires products that can support and maintain the acid protection mantle. Skin at a higher risk of irritation requires skin care formulations designed to penetrate the deeper layers of the skin for maximum nourishment and protection.

## Better care

Up to 64% of people who suffered from IAD or severe skin issues had no skin irritations after 18 days of using No Rinse products.<sup>17</sup>

## Efficient

By using No Rinse products, professionals can reduce time spent on each cleansing by up to 4 min.<sup>17</sup>

## Economic

Cleansing with No Rinse products helps to save costs such as hygiene and laundry products.<sup>17</sup>

# MoliCare® Skin

Clean, Protect & Care

## 3in1 Wet Wipes

Impregnated tissues with lotion to cleanse, protect and moisturise the skin.

- + Convenient and time saving solution for compromised skin
- + Skin friendly pH-balanced
- + Preserve the natural acid protection mantle of the skin
- + Dermatologically tested
- + Contains Almond oil, a natural source of essential fatty acids and provides an occlusive effect
- + With Chamomile extract
- + Contains Allantoin, to support moisture and healing
- + Alcohol-free formula
- + Contains Aloe Vera and glycerin which helps to keep the skin moisturised

# MoliCare® Skin

**Clean** Cleansing without water

Convenient, quick and time-saving cleansing

## Moist Skin Care Tissues

- + Easy, gentle and hygienic all-over body cleansing
- + Skin friendly pH-balanced
- + Suitable for sensitive and irritated skin
- + Dermatologically tested
- + Free of allergens and mild cleansing
- + Alcohol-free
- + Contains Chamomile extract to soothe irritated skin

## Cleansing Foam

- + For the perineal area
- + Skin friendly pH-balanced
- + Gently and effectively removes faeces
- + Contains Creatine to stimulate the skin's own barrier function
- + Odour-neutralising with a pleasant scent

## Impregnated Wash Gloves

- + For the whole body
- + Skin friendly pH-balanced
- + Dermatologically tested for skin tolerance
- + Nourishing and moisturising with Aloe Vera and Panthenol
- + Alcohol-free
- + Option to use warmed or cooled

## Rinse Free Shampoo Cap

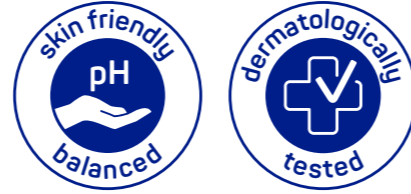

- Rinse free shampoo cap impregnated with shampoo and conditioner
- + Washes hair fast, gently and conveniently
- + For clean and soft hair without needing a bath or a shower
- + Skin friendly pH-balanced
- + Dermatologically tested
- + No colourants or perfume

# MoliCare® Skin

Clean

Cleansing with water

Mild and gentle cleansing of the whole body

## Wash Lotion

- + A gentle, low surfactant, pH-balanced formulation
- + Suitable for sensitive and irritated skin
- + Contains nourishing panthenol and almond oil to nourish and hydrate the skin
- + Odour-neutralising with a refreshing scent
- + Can be used in a bowl or in the shower

## Shampoo

- + Mild cleansing shampoo for hair and sensitive scalps
- + Skin friendly pH-balanced
- + Long lasting effect so hair does not need daily washing
- + Contains nourishing panthenol and almond oil to nourish and hydrate the skin
- + Odour-neutralising

# MoliCare® Skin

Protect

 Advance Skin Protection: Effective skin protection can lower the incidence of IAD by up to 27%.<sup>18</sup>

## Barrier Cream

- + With **Nutriskin® Protection Complex** to enhance the skin's own defence mechanism
- + Water-in-oil emulsion for rapid and deep penetration of skin layers for long lasting protection
- + Suitable for genital and perineal area for daily skin protection
- + Forms a transparent protective film on the skin which helps to prevent skin irritations
- + Suitable for sensitive and irritated skin
- + Soothes, moisturises and protects irritated skin while supporting the hydration of the skin and regeneration of the acid protection mantle
- + Does not block continence absorbent products

## Protection Foam

- + With **Nutriskin® Protection Complex** to enhance the skin's own defence mechanism
- + Suitable for genital and perineal area
- + Helps to recover irritated skin and regenerate damaged skin
- + Forms a transparent film while conditioning and allowing the skin to breathe
- + Suitable for sensitive and irritated skin
- + A small amount of foam is sufficient to cover a large area
- + Does not block continence absorbent products

# MoliCare® Skin

Care

Intensive care for vulnerable skin: Moisturising the skin twice daily has been clinically proven to reduce the occurrence of skin tears by 50%.<sup>7</sup>

## Body Lotion

- + With Nutriskin® Protection Complex to enhance the skin's own defence mechanism
- + Moisturising water-in-oil emulsion
- + Suitable for sensitive and irritated skin

## Hand Cream

- + Intensive care for the skin
- + Regenerate the skin's own barrier function
- + For very dry, chapped hands

\*\* Body lotion: Aqueous phase of the W/O emulsion  
\*\*\*Only Body Lotion
