

Tasty, Pre-Thickened Drinks!

Precise
THICK'N READY

Precise Thick-N INSTANT is as easy as 1,2,3, but now we've taken one mighty step forward for added convenience with our all **NEW** range of Pre-Thickened Drinks.

These refreshing drinks come in ergonomically designed cups for ease of grip providing “must have” convenience. Flavours are available in the three recognised viscosities – mildly, moderately and extremely thick – with colour coded labels. There's nothing to prepare, just peel and serve.

Enjoy Pre-Thickened Thick'N Ready in a full range of flavours that patients and residents will find refreshing, hydrating and enjoyable to consume.

Our selections burst with flavour, feels great in your mouth, and leaves no bitter aftertaste.

Available in these flavours NOW

**More exciting flavours to come.*

FEATURES, ADVANTAGES AND BENEFITS:

- Full of flavour
- Wonderful mouth feel
- No bitter aftertaste
- Convenient 185mL serves
- 12 cups per carton offering greater flexibility in ordering of flavours
- No need for any preparation, just peel and sip.
- Ergonomically designed, easy to hold cup that features a stable base and non-slip grip areas
- No need to use a cup or glass
- Freeze / thaw stable
- Foil peel top lids are colour coded to the Australian Standards for Texture Modified Foods and Fluids
- Each flavour is available in the three Australian Standards recognised viscosities, mildly thick – level 150, moderately thick – level 400 and extremely thick – level 900

DIRECTIONS OF USE:

Place the cup on a stable table or bench top. Open the foil lid by facing the foil peel tab away from yourself and carefully pull the tab backwards to open.

PACKAGING:

Each flavour and viscosity comes packed in a 185mL plastic cup with 12 cups per carton. The cups have a foil lid for product identification with the product description, ingredients list, volume and nutritional declaration. Each cup has the viscosity level printed on the side of each cup.
